FITS MOST APPLICATORS*

*FITS ALLFLEX & DROVERS APPLICATORS

The Os-E30 electronic tag for cattle is accredited for NLIS in Australia and is also approved as an official devices for electronic identification in many other countries.

The Os-E30 tag is ICAR (International Committee for Animal recording) approved and ISO11784 and ISO 11785 accredited.

These accreditations ensure compatability with electronic scales, reading equipment and other installations that also comply with the standards.

EASY TO APPLY:

**ONE APPLICATOR FOR ALL
TWO PIECE TAGS**

Os-ID Applicators apply both Os-ID and Drovers NLIS tags
as well as Os-ID and Duflex Visual Management tags.
